[Alicia Model \(1 - 65\)](#)

Given

A = Alicia can paint a wall in 150 minutes
 $= \frac{1}{150}$ th of wall in one minute

B = Leslie can paint $\frac{1}{100}$ th of wall

working together = A + B

$$= \frac{1}{150} + \frac{1}{100}$$
$$= \frac{100 + 150}{150 \times 100}$$
$$= \frac{250}{15000} = \frac{25}{1500} = \frac{1}{60}$$

So, it takes 60 minutes to working together
